Professional Summary

Computer Science Engineering graduate with strong knowledge of Java, Python, JavaScript, React.js, Node.js, FastAPI, MongoDB, and MySQL. Skilled in developing AI-powered web applications using REST APIs and familiar with Machine Learning, NLP, and LLMs. Seeking an entry-level Software Developer / Web Developer role to build scalable and innovative applications.

Technical Skills

Programming Languages

• Java • Python • JavaScript

Frontend

• HTML5 • CSS3 • React.js

Backend

• Node.js • FastAPI • REST APIs

Database

• MongoDB • MySQL

AI/ML

• Pandas • Machine Learning • NLP • LLMs • Prompt Engineering

Cloud & Tools

• Git • GitHub • Linux • Microsoft Azure

Projects

AI Mock Interview System

Tech Stack: Python, FastAPI, React.js, MongoDB, JWT Authentication, NLP, LLM, REST APIs

- Currently developing an AI-powered mock interview platform that generates technical interview questions based on users' skills and selected domains.
- Built a FastAPI backend and integrated MongoDB for user authentication, interview history, and performance data.
- Implemented JWT Authentication to provide secure login and session management.
- Developed REST APIs to enable seamless communication between the React.js frontend and FastAPI backend.
- Integrated NLP and Large Language Models (LLMs) to evaluate user responses and generate personalized feedback.
- Designed a responsive React.js interface with real-time interview sessions and performance tracking.

AI Chatbot

Tech Stack: HTML, CSS, JavaScript, REST APIs

- Developed an AI-powered chatbot capable of answering user queries in real time.
- Integrated REST APIs for seamless communication between frontend and backend.
- Implemented NLP concepts to improve conversational accuracy.
- Designed a responsive user interface with modern styling and Dark Mode.
- Enhanced user experience through interactive and dynamic responses.

Personal Portfolio Website

Tech Stack: React.js, HTML5, CSS3, JavaScript

- Currently developing a responsive personal portfolio website to showcase projects, technical skills, certifications, and contact information.

- Building a modern and mobile-friendly user interface using React.js.
- Implementing project showcase, resume download, and contact form functionality.
- Optimizing website performance and responsive design for different screen sizes.
- Planning deployment using GitHub Pages or Vercel.

Internships

AI Prompt Engineering Intern – Infosys, India Aug 2025 – Oct 2025

- Developed and optimized AI prompts.
- Improved AI response quality through testing.

Java Programming Intern – Infosys, India Jan 2025 – Mar 2025

- Worked with Java fundamentals and data structures.
- Solved programming problems using Arrays and Strings.

Microsoft Azure Intern – Ramraj Tech, India Jan 2024 – Apr 2024

- Learned Azure cloud services and application deployment.
- Assisted in cloud infrastructure management.

Education

Bachelor Of Technology – CSE
Technocrats Institute of Technology

2022-2026 /CGPA (Till 7th Semester): 6.8

Higher Secondary
Dedicated Academic College

2020-2022/ 78.8%

Certifications

SAP Certified – Back-End Developer – ABAP Cloud

- Learned ABAP Cloud development concepts, object-oriented programming, and backend application development.

ServiceNow Certified Implementation Specialist – Data Foundations (CMDB & CSDM)

- Gained knowledge of CMDB, CSDM, and IT service management concepts within the ServiceNow platform

Microsoft Azure Internship

- Learned cloud computing fundamentals, Azure services, and application deployment basics.

Soft Skills

- Problem Solving
- Team Collaboration
- Adaptability
- Time Management
- Critical Thinking
- Communication Skills
